

Wireless access to internet is possible at the Physics Department; to register your portable device (notebook, netbook, etc.) please provide the following information:

Name, Institution, *mac address* of the device

e.g.

Enrico Fermi, Phys. Dept, Univ. of Parma, 00:1e:c2:af:c7:4a

The *mac address* can be easily found on your notebook either via the command
ifconfig -a (linux, MAC OS) or
ipconfig /a (windows).

On a mac you may find it through “*About This Mac/More Info/Network/Location*”.

Please note that internet access will not be provided while at the S. Elisabetta auditorium.

There are several terminals available to all participants at the Physics Dept. They are located at the first floor – aula Kirk – and second floor – aula Von Neumann. They are mostly linux machines. User: *snft*, passwd: (*ask at the registration desk*).
